Objective

Recent graduate specializing in AI/ML, eager to leverage my skills to solve real-world challenges in technology and innovation.

Technical Skills

- **Languages:** Python, Java
 - **AI/ML Libraries:** TensorFlow, scikit-learn, Keras
 - **Tools:** Git, Docker, Jupyter
 - **Cloud:** AWS, GCP
 - **Others:** NLP, Data Visualization
-

Education

B.Tech in Computer Science
University of Delhi | 2021 – 2024 | CGPA: 8.7/10

Projects

- **AI Chatbot for Support:** Developed a chatbot using Python and NLP to assist customers with queries.
 - **Healthcare Image Classifier:** Created a deep learning model for medical image recognition using TensorFlow.
 - **Sentiment Analysis Tool:** Built an app to analyze customer reviews with NLP and scikit-learn.
 - **Sales Forecasting Model:** Predicted sales trends using machine learning algorithms.
-

Certifications

- IBM AI Engineering Certificate
 - Coursera Machine Learning Specialization
-

Languages

- English (Fluent)
- Hindi (Native)
